

You Can Count on Us

1. Time is Money and Quality is Everything:

- We manage the CAD & GIS portion of your project so you can focus on higher billable tasks and more projects - for greater profitability. Our work will fit seamlessly with yours
- A collaborative approach ensures implementation of best practices, advanced tools and methods
- We are ready when you need us and off the clock when you don't
- Our accuracy and speed is powered by over 25 years of CAD & GIS industry experience
- We are compatible - using current versions of industry standard Autodesk® and Esri® products
- No more messed up, missing, or lost files, we backup and store your files so they are readily available

2. Add Value to Your Project:

- We can obtain aerial photos, topographic maps and other digital resources
- Generate cross sections skeletons from boring and well logs
- Prepare preliminary and/or final contours in Surfer or Spatial Analyst
- Work directly with your data in a spreadsheet format and maintain site specific spatial databases
- Populate a PowerPoint presentation with AutoCAD and ArcGIS files
- Manage other CAD & GIS related tasks as needed

3. Easy Access:

- E-mail requests and relevant files to: pointmap@pointmap.com
- Reference the project name, or job number in the subject line
- Know that your work is our number one priority
- Our goal is quality and fast turnaround
- We will contact you if we have questions or need additional information, otherwise you can expect to hear back from us within 24-48 hours with PDFs for review or an estimated completion date
- Contact us if you need more information or have questions and concerns
