

Getting Started with Pointmap

You Collect the Data. We Make it Presentable.

Using Autodesk® and Esri® products to prepare maps, technical drawings, details, report figures, graphics, and presentation materials we help you determine the best way to assemble, manage, and convey information.

First requests - please call our office at 651-481-6980.

Getting started with a CAD and GIS project might be easier than you think! We can answer questions and provide options to help simplify the drafting and mapping portion of your project. We will use your company standards or help you establish standards to promote consistency and quality. If you're not sure where to begin, calling POINTMAP is a great start.

Subsequent requests

Can be sent via e-mail along with any relevant files. When necessary we can use our secure FTP site to share, store, or transfer files. E-mail CAD and GIS requests to pointmap@pointmap.com. Include the project name or job number on the e-mail subject line for reference. Your work is our number one priority. Our goal is quality and fast turnaround. We will contact you if we have questions or need additional information, otherwise, you can expect to hear back from us within 24-48 hours with PDFs for review or an estimated completion date.

Map Output is Our Focus. Making You Look Good is Our Job.

When you need to communicate effectively, you can count on us.
